Product Datasheet

Goat anti Rabbit IgG IgA IgM (heavy and light chains), Clone: [Polyclonal], Monoclonal NMB-GAR/IG

Article Name	Goat anti Rabbit IgG IgA IgM (heavy and light chains), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAR/IG
Supplier Catalog Number	GAR/Ig
Alternative Catalog Number	NMB-GAR/IG
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Species Reactivity	Rabbit
Conjugation	Unconjugated
Format	Antiserum
Target Specificity	IgG+IgM+IgA (H+L)
Cross-Adsorption (MinX)	no cross-adsorbtion
Product Description	The reactivity of the antiserum is directed to the major isotypes of the rabbit immunoglobulin em (classes and both light chain types) including antibodies to common determinants, to s and to the surface determinants of the common Fab portion, as tes...
Clonality	Monoclonal
Clone Designation	[Polyclonal]

Buffer	Delipidated, heat inactivated lyophilized stable whole serum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. It is reconstituted by adding 1 ml ste
Source	Purified normal IgG and fractions containing IgA, and IgM isolated from rabbit serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated lyophilized stable whole serum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Antibody Type	Secondary Antibody
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in a 3 mm diameter centre well and 2 µl serum samples (neat and diluted) in 2 mm diameter peripheral wells.
