Product Datasheet

Rabbit anti Human complement, Clone: [Polyclonal], Monoclonal NMB-RAHU/C

Article Name	Rabbit anti Human complement, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RAHU/C
Supplier Catalog Number	RAHu/C
Alternative Catalog Number	NMB-RAHU/C
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against human plasma a single precipitin line is obtained in the beta-1 region and shows a reaction of full identity with the purified immunogen. The antiseru...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated lyophilized whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized antiserum by
Source	The complement complex of C3c, C3d and C4 is isolated and purified from pooled normal human plasma. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated lyophilized whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl human plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl plasma samples (neat and serially diluted) in 2 mm diameter peripheral wells. In single radial immunodiffusion use 1 percent antiserum in the gel.
