Product Datasheet

Rabbit anti Human transferrin, Clone: [Polyclonal], Monoclonal NMB-RAHU/TRF

Article Name	Rabbit anti Human transferrin, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RAHU/TRF
Supplier Catalog Number	RAHu/Trf
Alternative Catalog Number	NMB-RAHU/TRF
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Application	IP
Species Reactivity	Human
Product Description	The reactivity of the antiserum is restricted to transferrin as tested in immunoelectrophoresis and radial immunodiffusion. A characteristic single precipitin line is obtained with normal serum which shows a reaction of identity with the precipitin I...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	P02787
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilized

Source	Purified transferrin isolated from pooled human serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 μ l serum or equivalent against 120 μ l antiserum. In double radial immunodiffusion use a rosette arrangement with 10 μ l antiserum in 3 mm diameter centre well and 2 μ l serum samples (neat and serially diluted) in 2 mm diameter peripheral wells.
