| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | DOT, ELISA, ICC, IHC-P, WB                                                                                                                                                                                                                                    |
| Species Reactivity         | Porcine                                                                                                                                                                                                                                                       |
| Conjugation                | Biotin                                                                                                                                                                                                                                                        |
| Product Description        | The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: immunoelectrophoresis, cross-immunoelectrophoresis, single radial immunodiffusion (Ouchterlony), block titration, ELISA, immunoblotting and... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [Polyclonal]                                                                                                                                                                                                                                                  |
| UniProt                    | <a href="#">P00336</a>                                                                                                                                                                                                                                        |

|                   |                                                                                                                                                                                                                                                                 |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer            | Biotin-coupled hyperimmune rabbit IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added. It is reconstituted by adding 1.0 ml sterile dis |
| Source            | Rabbits were immunized with L-Lactic dehydrogenase, LDH-1(H4) isoenzyme, isolated and purified from porcine heart. Freund's complete adjuvant is used in the first step of the immunization procedure.                                                          |
| Form              | Biotin                                                                                                                                                                                                                                                          |
| Application Notes | ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting.                                                                                                                                                                          |
