Product Datasheet

Rabbit anti Sheep erythrocyte, Clone: [Polyclonal], Monoclonal NMB-RASH/ERY/7S

Article Name	Rabbit anti Sheep erythrocyte, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RASH/ERY/7S
Supplier Catalog Number	RASh/Ery/7S
Alternative Catalog Number	NMB-RASH/ERY/7S
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	To sensitize cells in haemolytic complement assays and for screening of T and T receptor-bearing lymphocytes....
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added. Homologous proteins of different species frequently share antigenic determinants. Cross-reactivity has not been tested. Reconsti
Source	Washed whole erythrocytes were prepared from fresh blood and used for intravenous immunization. Freund's complete adjuvant is used in the first step of the immunization procedure.
Formula	Purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added. Homologous proteins of different species frequently share antigenic determinants. Cross-reactivity has not been tested.

Application Notes	Indirect immunofluorescence,ELISA,Dot blot,Immunoblotting. Haemolytic titre, at which 50% lysis occurs following mixing of equal volumes of antiserum, guinea pig complement (at a 1:60 dilution) and 5×10^8 RBC/ml, not less than 1:3,000 when tested with sheep erythrocytes.
