| Product Description        | Considerable evidence indicates that a polo-like kinase (PLK) plays an important role in cell cycle regulation. PLK is also required for bipolar spindle formation, activation of the anaphase-promoting complex/cyclosome, and cytokinesis. Recent work l... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |

|               |                                                                                                                                      |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Form          | Prepared from rabbit serum by affinity purification via sequential chromatography on phospho- and dephosphopeptide affinity columns. |
| Target        | Synthetic phospho-peptide corresponding to amino acid residues surrounding Ser482/486/490 conjugated to KLH.                         |
| Antibody Type | Polyclonal Antibody                                                                                                                  |
