| Manufacturer               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC                                                                                                                                                                                                                                                           |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant fragment (around aa1-200) of human MYC protein (exact sequence is proprietary)                                                                                                                                                                    |
| Product Description        | It recognizes a transcription factor of 64-67kDa, identified as c-myc. Its epitope spans between aa 410-419 (EQKLISEEDL) which is a specific portion of an alpha helical region of human c-myc protein. This MAb shows no cross-reaction with v-myc. c-myc... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [MYC/7683R]                                                                                                                                                                                                                                                   |
| Molecular Weight           | 62-64kDa                                                                                                                                                                                                                                                      |
| NCBI                       | <a href="#">4609</a>                                                                                                                                                                                                                                          |

|                   |                                                                                                                                                                                                                                                               |
