| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant fragment (around aa300-431) of human FOXP3 protein (exact sequence is proprietary)                                                                                                                                                                |
| Product Description        | Recognizes a protein of 47-55kDa, which is identified as FOXP3. Its precise epitope is not known, but it has been mapped to the N-terminal portion of the protein. The FOX family of transcription factors is a large group of proteins that share a commo... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [FOXP3/7990R]                                                                                                                                                                                                                                                 |
| Molecular Weight           | 47-55kDa                                                                                                                                                                                                                                                      |
