| Species Reactivity         | Human, Mouse, Primate                                                                                                                                                                                                                                         |
| Immunogen                  | SU-DHL-4 lymphoma cells                                                                                                                                                                                                                                       |
| Product Description        | It recognizes a protein of ~35kDa, identified as CD74 (Workshop IV). CD74 is a type II transmembrane protein which binds to the peptide binding groove of newly synthesized MHC class II alpha/beta heterodimers and prevents their premature association ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [CLIP/7023R]                                                                                                                                                                                                                                                  |
| Molecular Weight           | 33-41kDa                                                                                                                                                                                                                                                      |

| UniProt           | <a href="#">P04423</a>                                                                                                                                                 |
| Form              | 200ug/ml of Ab purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type     | Recombinant Monoclonal Antibody                                                                                                                                        |
| Application Notes | ELISA (For coating, order antibody without BSA), ,Optimal dilution for a specific application should be determined.                                                    |
