| Category                   | Proteine/Peptide                                                                                                                                                                                                                                               |
| Conjugation                | TRITC                                                                                                                                                                                                                                                          |
| Concentration              | 1.0 mg/mL by dry weight                                                                                                                                                                                                                                        |
| Buffer                     | None                                                                                                                                                                                                                                                           |
| Form                       | Lyophilized                                                                                                                                                                                                                                                    |
| Application Notes          | Beta Amyloid 40, N-5-TAMARA Control Peptide is suitable for use in ELISA, Western Blot, Dot blot, PCA, and other assays. Control peptide should be used at 1.0 µg per 1.0 µl of antiserum in per assay. Specific conditions for reactivity should be optimized |
