| Form                       | Liquid (sterile filtered)                                                                                                                                                                                                                                      |
| Application Dilute         | ELISA: User Optimized, IHC: User Optimized, WB: User Optimized                                                                                                                                                                                                 |
| Application Notes          | NFKB p50 (NFKB1) Control Peptide is intended for use as a control peptide when used with anti-Human NFkB p50 (NFKB1) to block specific interaction of anti-Human NFkB p50 (NFKB1) with the Human NFkB p50 (NFKB1) subunit. NFKB p50 (NFKB1) Control Peptide sh |
