## Product Datasheet

### **Mouse IgG anti-Human IgG (H+L)-Alk. Phos., MinX none, ALP, Polyclonal , AP ROC-609-305-002**

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Article Name               | Mouse IgG anti-Human IgG (H+L)-Alk. Phos., MinX none, ALP, Polyclonal , AP |
| Biozol Catalog Number      | ROC-609-305-002                                                            |
| Supplier Catalog Number    | 609-305-002                                                                |
| Alternative Catalog Number | ROC-609-305-002                                                            |
| Manufacturer               | Rockland Immunochemicals                                                   |
| Host                       | Mouse                                                                      |
| Category                   | Antikörper                                                                 |
| Application                | ELISA,IHC,WB                                                               |
| Species Reactivity         | Human                                                                      |
| Immunogen                  | Human IgG whole molecule                                                   |
| Conjugation                | Alk. Phos.                                                                 |
| Format                     | IgG                                                                        |
| Target Specificity         | IgG (H+L)                                                                  |
| Cross-Adsorption (MinX)    | no cross-adsorbtion                                                        |
| Clonality                  | Polyclonal                                                                 |
| Concentration              | 1 mg/mL by UV absorbance at 280 nm                                         |

|                    |                                                                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer             | 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v) Glycerol, pH 8.0                                                                                                                                      |
| Form               | Liquid (sterile filtered)                                                                                                                                                                                                                                      |
| Target             | Human                                                                                                                                                                                                                                                          |
| Antibody Type      | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Dilute | ELISA: 1:2,000 - 1:10,000, IHC: 1:200-1:1,000, WB: 1:500-1:2,500                                                                                                                                                                                               |
| Application Notes  | Anti-Human IgG Alkaline Phosphatase conjugate has been tested by ELISA and is suitable for immunoblotting (western or dot blot), ELISA, immunoelectron microscopy and immunohistochemistry as well as other antibody-based enzymatic assays requiring lot-to-l |
