| Category                   | Antikörper                                                                                |
| Application                | FACS,IF                                                                                   |
| Species Reactivity         | Human                                                                                     |
| Immunogen                  | Human IgG whole molecule                                                                  |
| Conjugation                | RPE                                                                                       |
| Format                     | F(ab')2                                                                                   |
| Target Specificity         | IgG (H+L)                                                                                 |
| Cross-Adsorption (MinX)    | Bovine,Gallus,Goat,Guinea pig,Hamster<br>(all),Equine,Mouse,Rabbit,Rat,Sheep              |
| Clonality                  | Polyclonal                                                                                |
| Concentration              | 0.5 mg/mL by absorbance = 82.0 at 565 nm                                                  |

|                    |                                                                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer             | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                                                                                                                     |
| Form               | Lyophilized                                                                                                                                                                                                                                                    |
| Target             | Human                                                                                                                                                                                                                                                          |
| Antibody Type      | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Dilute | Flow Cytometry: 1:100 - 1:250, IF Microscopy: 1:100 - 1:250                                                                                                                                                                                                    |
| Application Notes  | Suitable for immunomicroscopy and flow cytometry or FACS analysis as well as other antibody based fluorescent assays requiring extremely low background levels, absence of F(c) mediated binding, lot-to-lot consistency, high titer and specificity. The maxi |
