## Product Datasheet

### Goat F(ab)2 anti-Mouse IgM (μ)-Biotin, MinX none ROC-710-1607

|                            |                                                            |
|----------------------------|------------------------------------------------------------|
| Article Name               | Goat F(ab)2 anti-Mouse IgM (μ)-Biotin, MinX none           |
| Biozol Catalog Number      | ROC-710-1607                                               |
| Supplier Catalog Number    | 710-1607                                                   |
| Alternative Catalog Number | ROC-710-1607                                               |
| Manufacturer               | Rockland Immunochemicals                                   |
| Host                       | Goat                                                       |
| Category                   | Antikörper                                                 |
| Application                | ELISA,IHC,WB                                               |
| Species Reactivity         | Mouse                                                      |
| Immunogen                  | Mouse IgM whole molecule                                   |
| Conjugation                | Biotin                                                     |
| Format                     | F(ab')2                                                    |
| Target Specificity         | IgM (μ)                                                    |
| Cross-Adsorption (MinX)    | no cross-adsorbtion                                        |
| Clonality                  | Polyclonal                                                 |
| Concentration              | 1.0 mg/mL by UV absorbance at 280 nm                       |
| Buffer                     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |
| Form                       | Lyophilized                                                |

|                    |                                                                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target             | Mouse                                                                                                                                                                                                                                                          |
| Antibody Type      | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Dilute | ELISA: 1:20,000 - 1:150,000, IHC: 1:1,000 - 1:5,000, WB: 1:2,000 - 1:10,000                                                                                                                                                                                    |
| Application Notes  | F(ab)2 Anti-Mouse IgM Biotin Conjugated Antibody has been tested by ELISA and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, i |
