| Species Reactivity         | Aves, Canine, Drosophila, Equine, Frog, Human, Mouse, Rat                                                                                                                                                                                                     |
| Immunogen                  | Recombinant full-length human CYCS protein                                                                                                                                                                                                                    |
| Product Description        | It recognizes an epitope within amino acids 93-104 of pigeon Cytochrome C, a well-characterized mobile electron transport protein that is essential to energy conversion in all aerobic organisms. In mammalian cells, this highly conserved protein is no... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [CYCS/3128R]                                                                                                                                                                                                                                                  |
| Molecular Weight           | 15kDa                                                                                                                                                                                                                                                         |
