| Species Reactivity         | Canine, Guinea pig, Human, Monkey, Porcine, Rat                                                                                                                                                                                                               |
| Immunogen                  | Recombinant full-length human TLR4 protein                                                                                                                                                                                                                    |
| Product Description        | This MAb reacts with human Toll-like receptor 2 (TLR4). It is a member of the Toll-like receptor (TLR) family, which plays a fundamental role in pathogen recognition and activation of innate immunity. TLRs are highly conserved from Drosophila to huma... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [TLR4/3895R]                                                                                                                                                                                                                                                  |
| Molecular Weight           | 95-120kDa                                                                                                                                                                                                                                                     |
