| Species Reactivity         | All                                                                                                                                                                                                                                                           |
| Immunogen                  | Bromodeoxyuridine (BrdU) conjugated to hemocyanine (isolated from <i>Helix pomatia</i> )                                                                                                                                                                      |
| Product Description        | It reacts with Bromodeoxyuridine (BrdU) in single stranded DNA (produced by partial denaturation of double stranded DNA), BrdU coupled to a protein carrier, as well as free BrdU. BrdU is a thymidine analog, incorporated into cell nuclei during DNA sy... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [85-2C8]                                                                                                                                                                                                                                                      |
| Molecular Weight           | Depends on the target                                                                                                                                                                                                                                         |
| Isotype                    | IgG1                                                                                                                                                                                                                                                          |

|      |                                                                                                                                                                        |
