| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | Human Adenosine A1 Receptor (ADORA1) ELISA Kit for detecting ADORA1 in tissue homogenates, cell lysates, other biological fluids. Species Reactivity: Human (Homo sapiens). Detection Range: 0.156-10ng/ml. Sensitivity: 0.061ng/ml. Format: 96-Well Plate... |
| Range                      | 0.156-10ng/ml                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.061ng/ml                                                                                                                                                                                                                                                    |
| Form                       | 96-Well Plate                                                                                                                                                                                                                                                 |
| Samples                    | Tissue Homogenates, Cell Lysates, Other Biological Fluids                                                                                                                                                                                                     |
| Target                     | Adenosine A1 Receptor (ADORA1)                                                                                                                                                                                                                                |
