| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | Human Apelin (APLN) ELISA Kit for detecting APLN in serum, plasma, other biological fluids. Species Reactivity: Human (Homo sapiens). Detection Range: 15.6-1000pg/ml. Sensitivity: 6.13pg/ml. Format: 96-Well Plate. Assay Type: Competitive inhibition. ... |
| Range                      | 15.6-1000pg/ml                                                                                                                                                                                                                                                |
| Sensitivity                | 6.13pg/ml                                                                                                                                                                                                                                                     |
