| Species Reactivity         | Mouse                                                                                                                                                                                                                                                         |
| Product Description        | Mouse Aryl Hydrocarbon Receptor (AhR) ELISA Kit for detecting AhR in tissue homogenates, cell lysates, other biological fluids. Species Reactivity: Mouse (Mus musculus). Detection Range: 0.156-10ng/ml. Sensitivity: 0.056ng/ml. Format: 96-Well Plate. ... |
| Range                      | 0.156-10ng/ml                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.056ng/ml                                                                                                                                                                                                                                                    |
| NCBI                       | <a href="#">11622</a>                                                                                                                                                                                                                                         |
