| Product Description        | Anti-CD52 (CAMPATH-1) (Mouse) mAb, IgG2a, Clone: [BTG-2G], Rat,<br>Monoclonal...            |
| Clonality                  | Monoclonal                                                                                  |
| Concentration              | 1 mg/mL                                                                                     |
| Clone Designation          | [BTG-2G]                                                                                    |
| Isotype                    | IgG2a                                                                                       |

|                    |                                                                                                                                                                                                                                               |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI               | <a href="#">1043</a>                                                                                                                                                                                                                          |
| Buffer             | 1 mg/mL in PBS/50% glycerol, pH 7.2                                                                                                                                                                                                           |
| Source             | This antibody was purified from hybridoma (clone BTG-2G) supernatant using protein G agarose. This hybridoma was established by fusion of mouse myeloma cell P3U1 with Wister rat splenocyte immunized with mouse IL-2R alpha-TGM splenocyte. |
| Target             | CAMPATH-1/CD52                                                                                                                                                                                                                                |
| Application Dilute | IP: 20 ug/mL of cell extract from 5x10 <sup>6</sup> cells. FCM: 10µg/mL (final concentration)                                                                                                                                                 |
