| Species Reactivity         | Human                                                                                                                                                                                                                  |
| Immunogen                  | Serum, plasma, cell culture supernatant, and other biological fluids.                                                                                                                                                  |
| Conjugation                | Biotin                                                                                                                                                                                                                 |
| Product Description        | The ELISA (Enzyme-Linked Immunosorbent Assay) kit is an in vitro enzyme-linked immunosorbent assay for the quantitative measurement of samples in cell culture supernatant, serum, plasma (EDTA, citrate, heparin).... |
| Concentration              | 23.44 pg/mL                                                                                                                                                                                                            |
| Molecular Weight           | 4 hours                                                                                                                                                                                                                |
| Range                      | 46.88-3000 pg/mL                                                                                                                                                                                                       |
| Sensitivity                | 23.44 pg/mL                                                                                                                                                                                                            |
