| Immunogen                  | The antiserum was produced against synthesized peptide derived from human MKP-1/2 around the phosphorylation site of Ser296/318. AA range:261-310                                                                                                             |
| Product Description        | The expression of DUSP1 gene is induced in human skin fibroblasts by oxidative/heat stress and growth factors. It specifies a protein with structural features similar to members of the non-receptor-type protein-tyrosine phosphatase family, and which ... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
