| Category                   | Antikörper                                                                                                                                                                                                                                                      |
| Application                | ELISA, IF, IHC, WB                                                                                                                                                                                                                                              |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                                                                                               |
| Immunogen                  | The antiserum was produced against synthesized peptide derived from human MED23. AA range:1-50                                                                                                                                                                  |
| Product Description        | The activation of gene transcription is a multistep process that is triggered by factors that recognize transcriptional enhancer sites in DNA. These factors work with co-activators to direct transcriptional initiation by the RNA polymerase II apparatus... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                      |
| UniProt                    | <a href="#">Q9ULK4</a>                                                                                                                                                                                                                                          |
| Source                     | Polyclonal, Rabbit IgG                                                                                                                                                                                                                                          |
| Purity                     | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                           |

|                    |                                                                                                               |
|--------------------|---------------------------------------------------------------------------------------------------------------|
| Form               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                       |
| Application Dilute | WB 1:500 - 1:2000. IHC 1:100 - 1:300. IF 1:200 - 1:1000. ELISA: 1:5000. Not yet tested in other applications. |
