| Immunogen                  | Synthesized peptide derived from part region of human protein                                                                                                                                                                                                 |
| Product Description        | This gene encodes a member of the C-type lectin/C-type lectin-like domain (CTL/CTLD) superfamily. Members of this family share a common protein fold and have diverse functions, such as cell adhesion, cell-cell signaling, glycoprotein turnover, and ro... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
