| Immunogen                  | Synthetic Peptide of T7-Tag                                                                                                                                                                                                                                   |
| Product Description        | T7 tag is an epitope tag composed of an 11-residue peptide encoded from the leader sequence of the T7 bacteriophage gene10, which encodes a T7 major capsid protein. The T7 tag is commonly engineered onto the N- or C- terminus of a protein of interest... |
