| Article Name               | Prothymosin Alpha (PTMA), Clone: [4A7], Mouse, Monoclonal                                     |
| Biozol Catalog Number      | ANO-MO-T40087I                                                                                |
| Supplier Catalog Number    | MO-T40087I                                                                                    |
| Alternative Catalog Number | ANO-MO-T40087I-0.5MG, ANO-MO-T40087I-0.1MG                                                    |
| Manufacturer               | Anogen-Yes Biotech Laboratories                                                               |
| Host                       | Mouse                                                                                         |
| Category                   | Antikörper                                                                                    |
| Application                | EIA, WB                                                                                       |
| Species Reactivity         | Human                                                                                         |
| Immunogen                  | A short peptide (eeaengrdapangan) derived from PTMA was conjugated with KLH for immunization. |
| Product Description        | Mouse monoclonal antibody to human prothymosin alpha (PTMA)...                                |
| Clonality                  | Monoclonal                                                                                    |
| Clone Designation          | [4A7]                                                                                         |
| Isotype                    | IgG1,k                                                                                        |
| Purity                     | Protein G affinity purified                                                                   |
| Form                       | Aff. pur.                                                                                     |
| Storage                    | Store at -20°C                                                                                |
| Target                     | Human prothymosin alpha (PTMA)                                                                |

|                    |                                                                                                                                                                                                                                                               |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Dilute | Double distilled water is recommended to adjust the final concentration to 1.00mg/mL.                                                                                                                                                                         |
| Application Notes  | Western blot: This antibody is reactive to GST tagged 38.4KD recombinant PTMA protein. ELISA: Biotin labelled anti-PTMA clone 4A7 can be used as detection antibody for PTMA detection in combination with anti-PTMA clone 1F2, 4G2, 6H7 or 6A3 as capture... |
