| Product Description        | Rat gamma Secretase Activating Protein ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat gamma Secretase Activating Protein in tissue homogenates or other biological fluids.... |
| Range                      | 0.312-20 ng/ml                                                                                                                                                                                                                                                |
| Sensitivity                | 0.113 ng/ml                                                                                                                                                                                                                                                   |
| Samples                    | Tissue homogenates or other biological fluids.                                                                                                                                                                                                                |
| Target                     | gamma Secretase Activating Protein                                                                                                                                                                                                                            |
