| Species Reactivity         | Porcine                                                                                                                                                                                                                                |
| Product Description        | Porcine Fas Ligand ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of porcine Fas Ligand in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 15.625-1000 pg/ml                                                                                                                                                                                                                      |
| Sensitivity                | 9.375 pg/ml                                                                                                                                                                                                                            |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                                        |
| Target                     | Fas Ligand                                                                                                                                                                                                                             |
