| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Porcine                                                                                                                                                                                                                                                       |
| Product Description        | Porcine Luteinizing Hormone ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of porcine Luteinizing Hormone in serum, plasma, tissue homogenates, cell lysates, cell culture supern... |
| Range                      | 9.38-600 mIU/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 3.24 mIU/ml                                                                                                                                                                                                                                                   |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates or other biological fluids.                                                                                                                                                          |
| Target                     | Luteinizing Hormone                                                                                                                                                                                                                                           |
