| Product Description        | GATA1 (phospho Ser142) Cell-Based ELISA Kit is a Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of GATA1 levels in adherent and suspension cells.... |
| Range                      | > 5000 Cells                                                                                                                                                                                          |
| Samples                    | Adherent and suspension cells.                                                                                                                                                                        |
| Target                     | GATA1                                                                                                                                                                                                 |
