| Product Description        | Catenin delta 1 (phospho Tyr228) Cell-Based ELISA Kit is a Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of delta Catenin levels in adherent and suspension cells.... |
| Range                      | > 5000 Cells                                                                                                                                                                                                            |
| Samples                    | Adherent and suspension cells.                                                                                                                                                                                          |
| Target                     | delta Catenin                                                                                                                                                                                                           |
