| Product Description        | FAK (phospho Ser843) Cell-Based ELISA Kit is a Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of FAK levels in adherent and suspension cells.... |
| Range                      | > 5000 Cells                                                                                                                                                                                      |
| Samples                    | Adherent and suspension cells.                                                                                                                                                                    |
| Target                     | FAK                                                                                                                                                                                               |
