| Product Description        | HNF4 alpha (phospho Ser313) Cell-Based ELISA Kit is a Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of HNF 4 alpha levels in adherent and suspension cells.... |
| Range                      | > 5000 Cells                                                                                                                                                                                                     |
| Samples                    | Adherent and suspension cells.                                                                                                                                                                                   |
| Target                     | HNF 4 alpha                                                                                                                                                                                                      |
