| Product Description        | Smad1 (phospho Ser187) Cell-Based ELISA Kit is a Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of Smad1 levels in adherent and suspension cells.... |
| Range                      | > 5000 Cells                                                                                                                                                                                          |
| Samples                    | Adherent and suspension cells.                                                                                                                                                                        |
| Target                     | Smad1                                                                                                                                                                                                 |
