| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                        |
| Product Description        | PP2A alpha Cell-Based ELISA Kit is a Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of PP2A levels in adherent and suspension cells.... |
| Range                      | > 5000 Cells                                                                                                                                                                             |
| Samples                    | Adherent and suspension cells.                                                                                                                                                           |
| Target                     | PP2A                                                                                                                                                                                     |
