| Application                | ELISA                                                                                                                                                                                        |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                            |
| Product Description        | Caldesmon Cell-Based ELISA Kit is a Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of Caldesmon levels in adherent and suspension cells.... |
| Range                      | > 5000 Cells                                                                                                                                                                                 |
| Samples                    | Adherent and suspension cells.                                                                                                                                                               |
| Target                     | Caldesmon                                                                                                                                                                                    |
