| Conjugation                | Unconjugated                                                                                                                                                                                                                                                                           |
| Product Description        | Prokaryotic Human Protein Phosphatase, Mg <sup>2+</sup> /Mn <sup>2+</sup> Dependent 1D is a purified Prokaryotic Protein. Purity: >80% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Human (Homo sapiens). Target Name: Protein Phosphat... |
| Molecular Weight           | 30kDa                                                                                                                                                                                                                                                                                  |
| Tag                        | N-Terminal His Tag                                                                                                                                                                                                                                                                     |
| NCBI                       | <a href="#">8493</a>                                                                                                                                                                                                                                                                   |
| Buffer                     | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                                                |

|                   |                                                                      |
