| Product Description        | This GENLISA Rat Aminolevulinate Delta Dehydratase (ALAD) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Valid... |
| Range                      | 0.156 - 10 ng/ml                                                                                                                                                                                                                                             |
| Sensitivity                | 0.066 ng/ml                                                                                                                                                                                                                                                  |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                        |
