| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | Rat                                                                                                                                                                                                                                                           |
| Product Description        | This GENLISA Rat Apoptotic Peptidase Activating Factor 1 (APAF1) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision... |
| Range                      | 0.156 - 10 ng/ml                                                                                                                                                                                                                                              |
| Sensitivity                | 0.058 ng/ml                                                                                                                                                                                                                                                   |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
