| Category                   | Kits/Assays                                                                                                                                                                                                                                                    |
| Species Reactivity         | Rat                                                                                                                                                                                                                                                            |
| Product Description        | This GENLISA Rat Selenoprotein P1, Plasma (SEPP1) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated again... |
| Range                      | 31.2 - 2000 ng/ml                                                                                                                                                                                                                                              |
| Sensitivity                | 12.1 ng/ml                                                                                                                                                                                                                                                     |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                          |
