| Supplier Catalog Number    | PEM0832                                                                                                                                                                                                                                                                    |
| Alternative Catalog Number | EKL-PEM0832-10UG,EKL-PEM0832-50UG,EKL-PEM0832-500UG                                                                                                                                                                                                                        |
| Manufacturer               | EnkiLife                                                                                                                                                                                                                                                                   |
| Host                       | E. coli                                                                                                                                                                                                                                                                    |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                                           |
| Species Reactivity         | Mouse                                                                                                                                                                                                                                                                      |
| Product Description        | Mouse Ifng is a secreted protein which belongs to the type I I (or gamma) interferon family. IFNG is produced by lymphocytes and activated by specific antigens or mitogens. In addition to having antiviral activity, IFNG also has important immunoregul...              |
| Molecular Weight           | 15.7 KDa                                                                                                                                                                                                                                                                   |
| NCBI                       | <a href="#">01580</a>                                                                                                                                                                                                                                                      |
| Purity                     | Greater than 95% as determined by reducing SDS-PAGE                                                                                                                                                                                                                        |
| Application Notes          | Always centrifuge tubes before opening.Do not mix by vortex or pipetting.It is not recommended to reconstitute to a concentration less than 100µg/ml.Dissolve the lyophilized protein in 4mM HCl.Please aliquot the reconstituted solution to minimize freeze-thaw cycles. |
