| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | LAMP1/CD107a Protein, Human (HEK293, Fc) is a recombinant human CD107a expressed in HEK 293 cells with a C-Fc tag at the C-terminus. LAMP1/CD107a Protein can be used as a functional marker for the identification of natural killer cell activity[1][2].... |
| Molecular Weight           | 90-130 kDa                                                                                                                                                                                                                                                    |
| Purity                     | 98                                                                                                                                                                                                                                                            |
| Formula                    | 3916(Gene_ID)P11279-1 (A29-M382)(Accession)                                                                                                                                                                                                                   |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
