| Product Description        | HLA-A*2402 GP100 Intron 4 Complex Protein, Human (VYFFLPDHL, HEK293, His-Avi) is the recombinant human-derived HLA-A*2402 GP100 Intron 4 Complex protein, expressed by HEK293, with C-Avi, C-His labeled tag., has molecular weight of 55-63 kDa.... |
| Molecular Weight           | Approximately 55-63 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                      |
| Formula                    | 3105&567(Gene_ID)AAA59600.1 (G25-T305)&P61769 (I21-M119)&VYFFLPDHL(Accession)                                                                                                                                                                        |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                               |
