| NCBI                       | <a href="#">25118</a>                                                                                                                                                                                                                      |
| Expression System          | E.coli                                                                                                                                                                                                                                     |
| Purity                     | > 90 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                 |
| Form                       | Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.5. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequence                   | Ile22-Ala212                                                                                                                                                                                                                               |
| Target                     | TNFR1,TNFRSF1A                                                                                                                                                                                                                             |
