| Expression System          | HEK293 Cells                                                                                                                                                                                                      |
| Purity                     | > 90 % as determined by reducing SDS-PAGE.                                                                                                                                                                        |
| Form                       | Lyophilized from sterile PBS, pH 7.4Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization.Please refer to the specific buffer information in the printed manual. |
| Sequence                   | Met1-Lys230                                                                                                                                                                                                       |
