| Manufacturer               | MedchemExpress                                                                                                             |
| Category                   | Biochemikalien                                                                                                             |
| Product Description        | Donepezil N-oxide, a metabolite of Donepezil (HY-14566), is human erythrocyte acetylcholinesterase (AChE) inhibitor[1].... |
| Molecular Weight           | 395.49                                                                                                                     |
| Purity                     | 99.9                                                                                                                       |
| CAS Number                 | [120013-84-5]                                                                                                              |
| Formula                    | C24H29NO4                                                                                                                  |
| Target                     | Cholinesterase (ChE),Drug Metabolite                                                                                       |
| Application Notes          | MCE Product type: Reference compound                                                                                       |
