| Category                   | Proteine/Peptide                                                                                                              |
| Application                | SDS-PAGE                                                                                                                      |
| Product Description        | Human Cyclin B2 Recombinant Protein expressed in E. coli with His-tag. Sequence domain: 1-398aa. Application(s): SDS-PAGE.... |
| Concentration              | 0.25 mg/ml                                                                                                                    |
| Molecular Weight           | 47.8 kDa (422aa) confirmed by MALDI-TOF                                                                                       |
| Tag                        | HIS Tag                                                                                                                       |
| NCBI                       | <a href="#">9133</a>                                                                                                          |
| UniProt                    | <a href="#">O95067</a>                                                                                                        |
| Purity                     | >90%                                                                                                                          |
| Target                     | CCNB2                                                                                                                         |
