| Product Description        | Recombinant Mouse/Rat VEGF-C Protein is a dimeric glycoprotein, as a ligand for two receptors, VEGFR-3 (Flt4), and VEGFR-2. VEGF-C may function in angiogenesis of the venous and lymphatic vascular systems during embryogenesis. Measured in a cell prol... |
| Purity                     | >90%, Endotoxin < 1 EU/μg                                                                                                                                                                                                                                     |
