| Category                   | Biochemikalien                                                                                    |
| Product Description        | BAY 60-6583 is a potent and high-affinity agonist of adenosine A2B receptor with EC50 of 3 nM.... |
| Molecular Weight           | 379.44                                                                                            |
| Purity                     | 99.0%                                                                                             |
| CAS Number                 | [910487-58-0]                                                                                     |
| Formula                    | C19H17N5O2S                                                                                       |
| Target                     | Adenosine Receptor                                                                                |
